

Thank you so much for bringing me up to date on the fabulous DSI 2019 Annual Conference. When I reviewed the video and the “Walk of History”, it brought tears to my eyes. I recalled the challenges and, especially, the remarkable people, so many of whom became close friends, whom I was privileged to have the opportunity to work with as together we strived to meet these challenges and reach for the accompanying vision and dream. My wife, Carolie, also was taken by the memories of people, places, and events. I’m sorry I could not be in attendance. Those of us from the early days, some of whom are no longer with us, I know are extremely proud of what DSI has achieved so far, and what we know the future will bring.

Albert Simone

DSI Past President 1974 - 1975
