**Charges**

<b>2022-2023 charge</b>	<p><i>Propose programming for early doctoral students, intended to complement the existing annual doctoral consortium by engaging doctoral students earlier. Address content, modality (likely on-line) and budget required, such that the DSI Board might vote on the opportunity at its February 2023 board meeting, to potentially implement in summer of 2023. In your report, please include as many willing task owners for a summer 2023 pilot as you can identify by the report deadline.</i></p> <p><i>Note that proposed timing of this programming enables it to possibly serve as a component of the Summer Conference project under development in the Conference Committee. Its modular nature is also similar to a project under development in the Membership Services Committee; coordinate with both Committees as needed. Due date: January 31, 2023.</i></p>
<b>2022-2023 charge</b>	<i>Develop a new student member automated messaging plan for implementation through Growth Zone by the Home Office. Due date: September 1, 2022.</i>
